## Producing and Support for Worldwide Broadcasters & Brands

Film and television production is complex and expensive. Broadcasters and producers need local production partners they can trust, who are experienced, reliable, locally respected, and go the extra mile to make sure productions succeed.

Over the past few decades **Jungle Run** has been fortunate to work with some of the world’s premiere broadcasters. Led by producer / director Joe Yaggi in Indonesia since 1993, the team has worked from the pristine jungles of Papua to the concrete jungles of Jakarta, producing, directing, managing and shooting on a wide range of documentaries, fiction and factual television, TVCs, animation, shorts and feature films.

Meanwhile, in Indonesia’s fast paced television advertising market, *BumiHijau* has built a reputation as a trusted partner with extensive knowledge of Local TV and Media. Since 2011, *BumiHijau Media* distributed over 40,000 environment and social documentary films to Indonesian Local TV and represented those stations to the advertising industry in Jakarta. With recognized FMCG brands, government, NGOs and industry counted as clients, *BumiHijau* is focused on helping to bring Local TV to the national market for ad placement and buying.

Repeat clients across the board look to the teams at *Jungle Run* and *BumiHijau* to support their broadcast projects and advertising campaigns, and to create exceptional content from across the Indonesia.

# Jungle Run’s Story

## Media Across the Archipelago

In 1993 *Jungle Run Productions* launched as an extreme sports videography company. Since then the *Jungle Run* team has been involved in a wide range of high impact projects across Indonesia & SE Asia including TV series production, international location and production management services, camera crew and drone services, corporate films, iterative community and training films, teaching television production and producing award winning documentaries.

Work with community-based film projects led to the development of *BumiHijau Media* with a focus on Indonesia’s expanding domestic media market. Borne first out of a perceived gap in the quality and quantity of factual television in Indonesia, *BumiHijau* began distributing wildlife, environment, and social television programs in 2011 and has evolved into one of the largest Local TV representatives to the advertising industry in the country.

## Local Media Buying and Placement

*BumiHijau Media* represents 75 Local TV stations reaching 200 cities for ad buying, media placement and local market strategy with well-known national and international agencies and brands. With an in-depth database and extensive local knowledge, *BumiHijau* has helped open a broad, nationwide market for top advertisers and local television and radio stations alike.

## Factual Program Production & Distribution

Through partnerships with international program distributors and a strong in-house production team, *BumiHijau* has distributed over 30,000 programs to Local TV stations and social media and produced PSAs, TVCs, documentaries, television and web series for local consumption.
